#### **Grand Openings, Lodging Upgrades**

##### **Breakfast and Bed**

Setting itself apart from other island lodgings, Otters Pond B&B is more of a "breakfast & bed," as the new owner, Amanda Zimlich, is a Northwest native and a classically trained, professional chef. The breakfasts at Otters Pond B&B are quickly becoming legendary amongst her guests, as she offers a unique and delicious breakfast each morning, prepared using organic ingredients from her garden and island farms, and eggs laid fresh each morning by her hens, The Golden Girls. Otters Pond Bed & Breakfast is a boutique luxury five suite inn situated at the water's edge of Otters Pond, next to Moran State Park- a birder's paradise. ##### **Thyme for Main Street**

For the last two decades, Eliza and Chris Morris, the wizards behind the curtain of Island Thyme Bodycare, have been developing their soap and skincare line and connecting with customers at local stores and farmers markets. The longtime dream of creating a more permanent storefront came true when they took over Crow Valley Gallery in the heart of Eastsound. Now called the Island Thyme and Crow Valley Shop and Gallery, the space will continue to showcase the work of other local artists. The first official art opening starting this August will feature the work of Susan Mustard, who works primarily in oils but also makes collages from old book covers. A low wing, fixed gear aircraft that is capable of seating up to 6 passengers (5 comfortably) will get you quickly to your destination. While you travel at 140mph or more, you will enjoy the recently upgraded paint and leather interior with modern GPS based avionics. The Cherokee 6 has front and rear baggage areas with two doors for loading, a door at the front of the aircraft as well as a large double door in the back. ## **Exhibits & Activities**

### **Natural Art**

The three fall exhibits at the San Juan Islands Museum of Art showcase important aspects of the natural world. Food for Thought by Robert Dash offers a micro perspective on how one part of nature--our food--is connected to climate change. Tide of Transitions by Cathryn Mallory was inspired by the vast kelp forests of the Pacific Northwest. The Natural World of Malcolm Curtis Ross shows off Ross' love for his extensive garden and local forests. Madrones are a favorite subject as he captures their varied colors through the four seasons. Exhibits open September 27<sup>th</sup> and run through December 9<sup>th</sup>, 2019. ### **Nature and Stewardship**

#### **Killer Socks**

It started with Salmon-Safe beer to benefit the [SeaDoc Society](#), and now there's a new Orca Sock from KAVU to benefit San Juan Island's Center for Whale Research, the leading voice for the critically endangered Southern Resident Killer Whales (orcas). The Orca Sock features rad killer whale patterns in a wool/synthetic blend, and twenty percent of the profits from their sales will go toward the study and conservation of orcas. The new Orca Socks will sell for \$25 and available at KAVU stores in downtown Seattle, Ballard, and online at [www.kavu.com](http://www.kavu.com).

#### **Access Granted**

The Washington State Recreation and Conservation Funding Board have awarded San Juan County nearly 4 million dollars in grants for projects that build and maintain outdoor recreation facilities and conserve wildlife habitat. Among the projects is the purchase of ten acres along the western shore of Lopez Island for a public beach and for launching hand-powered boats. The area is part of the Cascadia Marine Trail. Rarely used in the past because there was no way for paddlers to launch or take out, this project will fill the gap. Orcas Island's Moran State Park will expand with the purchase of 55 acres that will extend the park's trail system and give visitors access to the shoreline for the first time.

#### **Keepin' It Clean**

A new sewage pump-out for recreational boaters is now open at the Shaw Island General Store. Longtime owners Steve and Terri Mason hope it will be both a convenient amenity for customers and help protect the water quality of the Salish Sea. Funded by Washington State Parks' Clean Vessel Act program, the new pump-out facility provides service in a high need area and adds to a much larger network of pump-out facilities across the state. Boaters should call the store ahead of time for service at (360)468-2288.

Drug abuse is a key element threading through the action, and Wingate hopes the story will resonate with women who have children at-risk, and that they will come away from it feeling empowered to overcome the odds.
